

Abel Scholl

Computer Science major seeking internship experience in Software Development

Professional Summary

I am currently a Computer Science major with a concentration in software development and minors in Cybersecurity, Information Technology, and Information Systems. I am seeking internship opportunities that allow me to utilize my creative nature and artistic perspective in the workplace.

I started my programming journey in my freshman year of high school with Python and Java, and my passion for coding grew into career goal and recreational venture. My current aspirations are driven by this, as well as a love of learning, applying, and creating.

Experience

Student Data Analyst

October 2022 - Present | Marist Department of Data Science, Poughkeepsie, NY

- Develop and maintain SQL databases to store data from several Marist College departments
- Extract, process, and sort raw data into organized and workable forms using SQL and Python
- Collaborate with team to analyze and overcome development issues
- Develop necessary tools/applications to provide easy data accessibility and mutability for clients

Education

Bachelor of Science (B.S.) in Computer Science Candidate

Expected graduation May 2026

Marist College, Poughkeepsie, NY, US

Certifications

Collaborative Institutional Training Initiative (CITI), 2024

- Social and Behavioral Responsible Conduct of Research
- Data or Specimens Only Research

Interests

Art and animation, crocheting, volleyball, puzzle games, psychology
